IDC306: Biocomputing
Practice of regex (Optional)
Date: 11 Mar 2024

1. Write regular expression to match:
   a. date given as dd-mm-yyyy or dd/mm/yyyy format.
   b. email id (name@domain.rest) [**name** can be alphanumeric, **domain** and **rest** are alphabets]

Extract this information from the text below:
Mr. X birthday is on 02/10/1989 and email id test@gmail.com.
